

ANNOUNCEMENT

THE LAW OFFICE OF CHRISTOPHER G. HILL PROVIDES MEDIATION SERVICES

During my time in practice, including my almost 5 years as the owner, president and solo attorney at The Law Office of Christopher G. Hill, PC I participated in numerous mediated resolutions to disputes as a representative of my clients. I found that at the end of the process my clients found an acceptable (if not perfect) solution to their disputes. Not only that, but my clients were better satisfied with the result because of the increased level of control and say in the outcome.

This experience, along with my experience as a construction litigator (and my clients' reactions to that process), led me to explore opportunities as a mediator. In that vein, I participated in the training and mentorship necessary to gain certification through the Virginia Supreme Court. I completed the process and gained my certification in March of 2012 and I have been honing my skills through mediating in the various General District Courts.

Now that I have a few years and a two re-certifications under my belt, I will be expanding my practice to include the mediation of private disputes. I hope that you will consider me for your needs in this regard.

For more information on the mediation process, me and my firm, please check out [my firm website](#) and my [Construction Law Musings blog](#) for my further thoughts on the subject.

Thanks in advance for your consideration and please do not hesitate to contact me with any questions.

Sincerely,

Christopher G. Hill
